EZEE Hoarding Inc.
23871 - 36A Avenue,
Langley, B.C. V2Z 2J6

Reference: EZEE Hoarding Inc. Temporary Hoarding System

To Whom it May Concern,

I was very skeptical with the claims that EZEE Hoarding was making about how easy and quickly that their system could be installed while still being able to meet the current safety standards.

Well it is with confidence that I can confirm that this new hoarding system is not only easy and fast to install (what would normally take a steel stud and drywall system 40 man hours to get paint ready took only 4 man hours and no painting required a finished product) and remove but it also reduces or eliminate any repairs to the existing finishes.

I cannot believe that the EZEE Hoarding system has not been used before.

I will gladly use again on all my projects where it can be used and recommend to others to use.

Yours truly
