EZEE Hoarding | Exceeding Expectations

Happy Earth Day!

Protecting our planet for future generations, long after us is our #1 reason we do what we do. Creating sustainable solutions that are efficient, recyclable, and work for your space! By reducing the amount of waste we create in our day to day life we create a cleaner and brighter future!

2021 WASTE ELIMINATION TRACKER

107,134 POUNDS

Have been eliminated from our landfills this year by choosing sustainable hoarding.

ALL TIME WASTE ELIMINATION TRACKER

1, 218, 596 POUNDS

April Feature Project

Closed Store Turned into Visual Display | Willowbrook Shopping Centre

We loved working on this empty retail space to create a marketing opportunity for other retailers to showcase their products. Turn vacant spaces into fun displays with windows and pocket doors to hide those closed gates!

This project was installed in just 3 hours with graphics installed the next morning. This project also eliminated **432 LBS** of drywall waste from heading to our landfills.

Did you know?

Property management and a variety of companies are starting to make sustainable hoarding a requirement in their building criteria. By noting EZEE Hoarding as their mandatory hoarding provider, they alone are now eliminating an average of 50,000 pounds of drywall waste a year! So what are you waiting for? Together we save you time and therefore money while also helping to create a cleaner planet!
